Professional Summary

Full-Stack Developer with experience building scalable web applications using Angular, React.js, Node.js, Express.js, and MongoDB. Skilled in responsive web design, frontend development, backend API development, RESTful API design, and database management.

Technical Skills

Frontend: Angular, React.js, JavaScript, TypeScript, HTML5, CSS3, Bootstrap **Backend:** Node.js, Express.js, RESTful APIs, ASP.NET, JWT Authentication

Databases: MongoDB, MongoDB Atlas

Tools & Platforms: Git, GitHub, Postman, Agile Methodologies

AI Tools: GitHub Copilot, ChatGPT, Claude

Projects

Event Registration & Management System

July 2026

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, JWT, PDFKit, jsQR, Brevo API, Vercel, Render

- Built and deployed a production-ready MERN Event Registration and Management System that enabled real-time ticket sales and revenue generation for a live client event while maintaining 100% uptime during peak traffic.
- Developed RESTful APIs using Node.js, Express.js, and JWT for authentication, event registration, ticket management, and payment workflows.
- Implemented a custom payment verification workflow with automated QR-coded PDF ticket generation using PDFKit and instant email delivery through the Brevo API after successful payment confirmation.
- Developed a real-time admin dashboard for payment approval, QR-based attendee verification, ticket tracking, and revenue analytics.

School Management Application

Feb 2026

Tech Stack: Angular, Node.js, TypeScript, HTML5, CSS3, JWT, RESTful APIs

- Developed a responsive, component-based Angular application for admissions, notices, events, gallery, and teacher management.
- Built secure RESTful APIs and an admin dashboard with CRUD operations for efficient content and user management.
- Implemented JWT-based authentication and authorization to ensure secure access and scalable application architecture.

Movie Library

September 2025

Tech Stack: Angular, TypeScript, HTML, CSS, REST APIs

- Built a Movie Library application using clean, component-based architecture, integrating a public movie API to fetch and display data asynchronously.
- Developed a Watchlist feature to add and remove movies, delivering a responsive and user-friendly interface.

Professional Experience

Freelance Full-Stack Developer

Jan 2026 – Present

BrandLift Digital Marketing Consultancy, Balaghat, India

- Develop and deploy client websites and web applications using the MERN stack (React.js, Tailwind CSS, Node.js), supporting the agency's social media management, reels, and digital marketing services for small business clients.
- Chose React.js with Tailwind CSS for frontend and Node.js for backend to keep client projects lightweight, fast to build, and low-cost to maintain, avoiding recurring third-party service fees.
- Handled end-to-end technical delivery for multiple client projects, from requirements gathering to deployment, while the rest of the team managed marketing, content, and client relations.

Frontend Developer Intern

Jan 2025 – Jul 2025

Vescript ITS Pvt. Ltd., Pune, India

- Contributed to UI development for an inventory management system using Angular, delivering a modern, responsive interface.
- Improved application performance through code splitting, lazy loading and development of reusable components following clean coding practices.

Education

Bachelor of Technology (B.Tech.) in Computer Science and Engineering

Aug 2021 – Jul 2025

S.B. Jain Institute of Technology, Management and Research, Nagpur, India

Languages

English (Fluent), Hindi (Native)
